

Elite Bhemia

CONTEMPORARY  
LIGHTS

# Traditional quality, modern design

ELITE BOHEMIA is a Czech family company that has become famous in the glass industry for its luxurious lighting fixtures made of Czech crystal. After 25 years of successful activity on the market of traditional chandeliers, it expanded its product portfolio and entered the world of modern design.

Design lighting fixtures from its production are inspired by current trends. They are designed to illuminate spaces and enrich customer's lifestyles. Their high quality and master craftsmanship is reflected in every detail.

# WHAT IS BOHEMIAN CRYSTAL

Czech crystal was created in the 17th century and already in the first half of the 18th century it gained world fame thanks to its perfect optical properties. Czech crystal chandeliers decorated the palaces of personalities such as Louis XV, Maria Theresa, Empress Elizabeth and Osman III.

# PRODUCTION OF CRYSTAL CHANDELIERS

The production of crystal lighting fixtures is a process that combines traditional craftsmanship with modern technology. It begins with the selection of high-quality crystal, which is carefully cut and polished to achieve maximum brilliance and sparkle.

This is followed by the manual assembly of individual parts, where precision and attention to detail are paramount. Crystal elements are often complemented by metal components, which are also hand-crafted and surface-finished.

The result is a luxurious lighting fixture that not only illuminates the space but also decorates it and gives it a unique character. Each piece is an original that reflects the artistry and skill of its creators.

# TRADITIONAL CRYSTAL CHANDELIERS

Richly decorated lighting fixtures that attract the attention of the surroundings with their amazing and unmissable brilliance.

This type of lighting can appeal especially to lovers of a more conservative design.

# DESIGN LIGHTING FIXTURES

Original decorative lighting fixtures, which are characterized by a unique design concept and an engaging story. In their production, a combination of contemporary technologies, materials and top glass craftsmanship is used.

These lighting fixtures meet all the requirements to be part of modern residences and public spaces.

# JOSEF CHLUM

## CEO ELITE BOHEMIA

Josef Chlum, a successful entrepreneur with a clear vision, who has been leading the thriving glass company ELITE BOHEMIA for almost 30 years.

Under his leadership, the company has grown from a small family business into a prominent glass company that today trades with more than 30 countries around the world, primarily in the Middle East, European Union, USA, and Southeast Asian countries.

Josef's love for glass began in childhood. His father, a glass presser at Jablonec Glassworks, instilled in him a feeling for the beauty and potential of glass. Josef decided to combine this passion with strategy and business skills, so he studied economics and specialized in foreign trade with Czech glass.

His dream was not only to continue the family tradition, but also to expand Czech glass throughout the world. His vision, determination, and ability to lead a team make him an inspiring figure not only in the business environment, but beyond it as well.

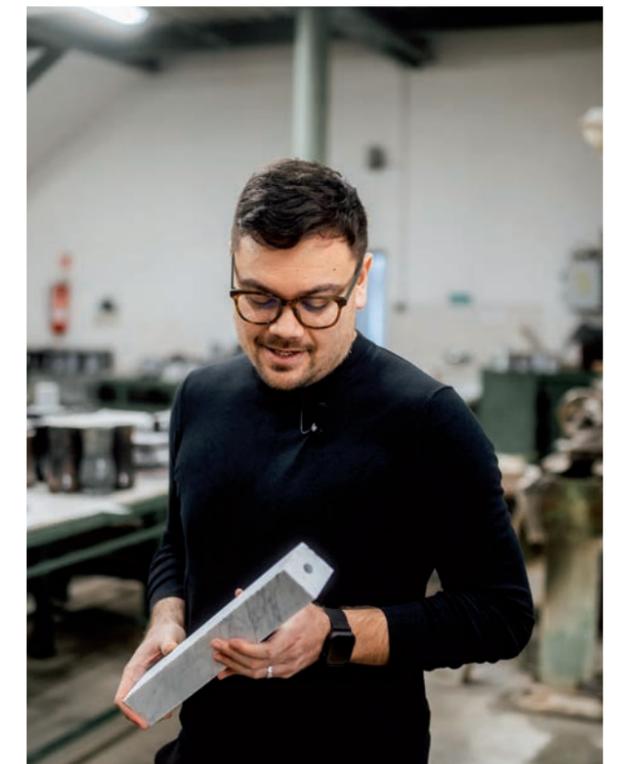

# JIŘÍ KRIŠICA

## DESIGNER

Jiří Krišica is a talented Czech designer, known for his ability to combine traditional materials with modern technologies. Since 2024, he has been working as an external designer for ELITE BOHEMIA, where he designs lighting fixtures and contributes to projects with his unique perspective.

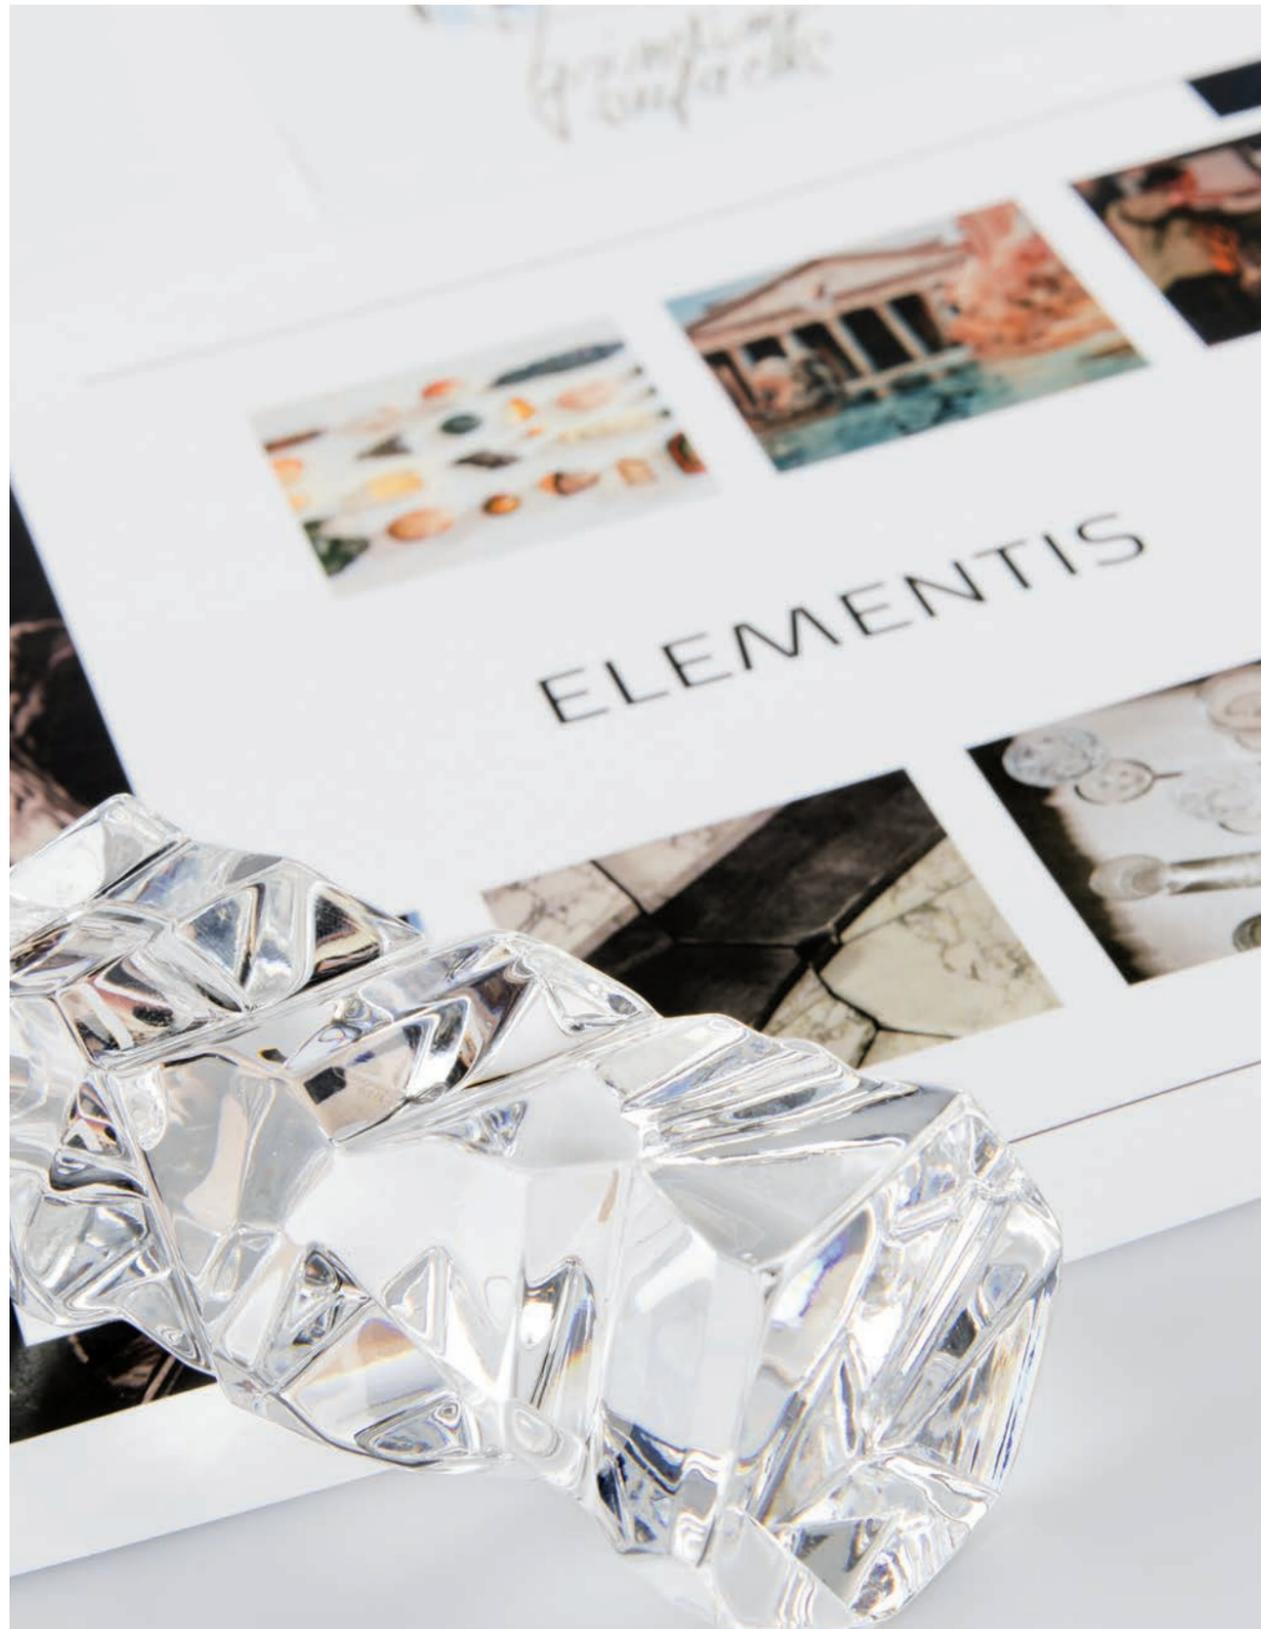

His work in the field of lighting design has gained recognition from professionals and the public worldwide, reflecting his distinctive vision and creativity.

His approach combines technical precision with visual appeal, creating solutions that are both thoughtfully detailed and visually striking.

ELEMENTIS

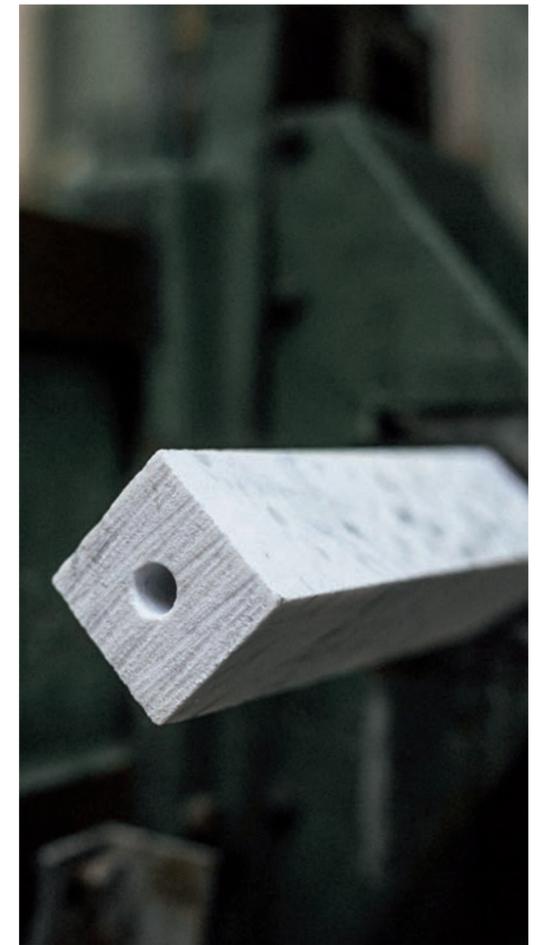

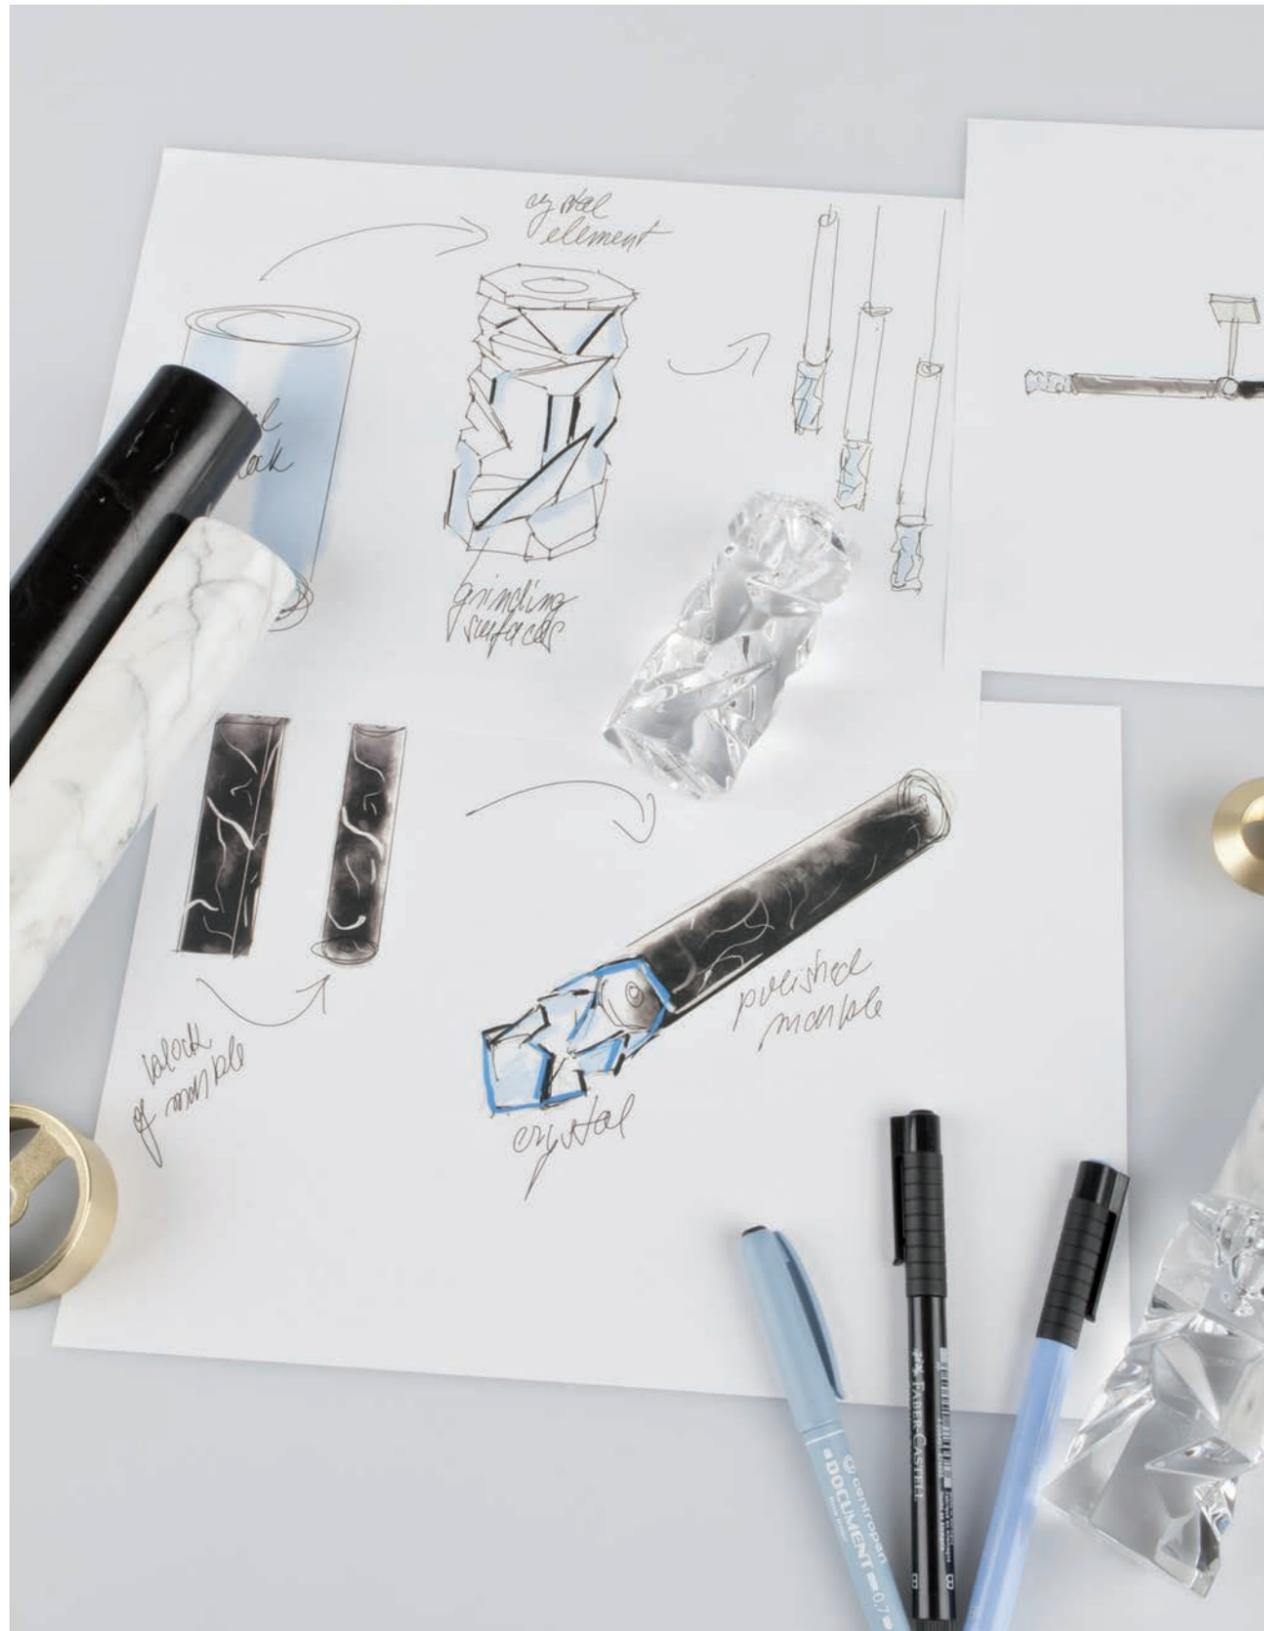

# ELEMENTIS

A masterful combination of marble and Czech crystal

The Elementis lighting fixture is the result of a desire to connect the contrasts of two iconic materials – natural marble and Czech crystal. Every detail of this designer light was created with emphasis on timeless values such as quality, luxury, elegance, and functionality.

The smooth and minimalist shape of the marble, available in two colour variants (black Nero Marquina and white Carrara), creates a perfect contrast with the sophisticated glass element made of Czech crystal. After the pressing technology, it is precisely ground and polished to create a perfect shape that produces unique lighting effects.

# GLITTERING EYE

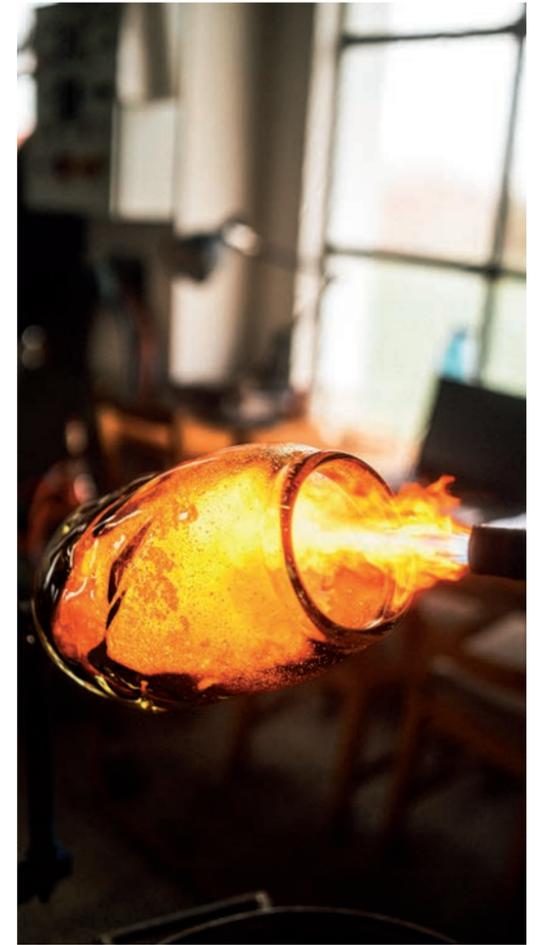

# GLITTERING EYE

Crystal magic hidden in a geode

The creation of the GLITTERING EYE lighting fixture was inspired by a geode - a natural stone, the interior of which is a cavity filled with smaller or larger glittering crystals of quartz or amethyst.

The densely shaped component resembles this natural stone. The cut crystals of Czech crystal inside the component evoke glittering gems and give the lighting fixture a unique shine and elegance.

Thanks to the perfect combination of handwork and skill of Czech glassmakers, each component is completely original, just like nature itself.

SEASHELL

# SEASHELL

Shimmer of Luxury

The Seashell design will amaze you with its perfect organic shape based on the shape of a natural seashell. For many this equally symbolizes a new beginning and a mystery.

The hand applied gold adds to the authenticity of the crystal work compared to the natural seashell of the chandelier and table lamp made of Bohemian glass. This artistically depicts the iridescent reflection of a real seashell and elegantly decorates the circumference of this original design.

# LANTERN

# LANTERN

The light of wishes and elegance

The Lantern light fixture was inspired by the traditional lantern, which is a symbol of happiness, hope, and wishes in many cultures.

It is made of glass, with approximately 80% of its production consisting of precise handwork and the remaining 20% representing a semi-finished product made from ready-made glass with internal grooving.

The fixture's illumination is provided by an integrated LED chip, which allows it to function as a full-fledged light fixture. However, it can also be used as a decorative object without a light source.

MELODY

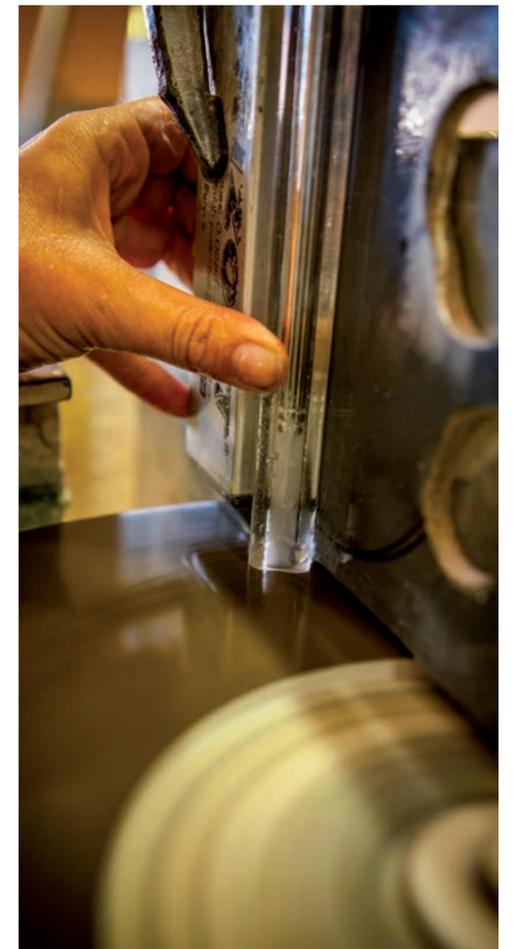

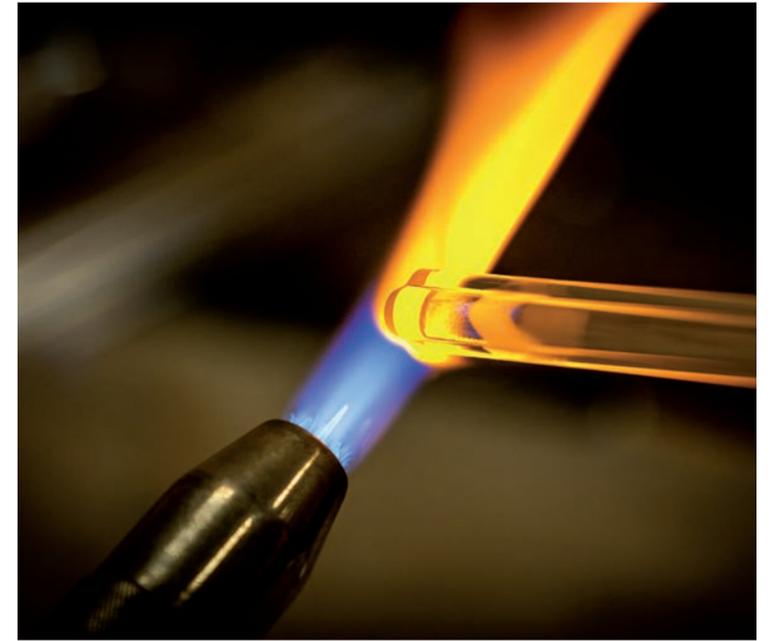

# MELODY

## Crystal Serenade

The MELODY light fixture design consists of playful crystal rods. Thanks to their arrangement, they resemble a perfect crystal melody that resonates when gently caressed by a ray of sunlight.

Each rod is a masterpiece, carefully crafted with love and attention to detail. Its surface is adorned with delicate cuts that create incredible lighting effects.

The size, shape, and density of the cuts influence not only the appearance of the fixture but also its overall impression.

AMULET

# AMULET

Symbol of protection and happiness

The inspirations for the creation of the AMULET light fitting have become legendary accompanying man since time immemorial.

According to world mythology amulets protect, bring luck and express the unknown.

The modern concept of the amulet symbol will bring a whiff of magic with a promise of new life.

The designer of the light fittings worked with the idea of the modern concept of a symbol in which the magic of the amulet is combined with the magic of Bohemian glass.

WATER

# WATER

The essence of purity in every drop

The designer light fixture WATER will illuminate your interior, giving it energy and luxurious style. Its creation was inspired by nature and the dynamics of a water geyser, which symbolizes movement and life.

The WATER light fixture is made of high-quality Czech crystal. Thanks to a special technique, tiny air bubbles are inserted into the glass, giving it fascinating depth and a unique optical effect.

This light fixture is ideal for lovers of subtle extravagance and precise craftsmanship. It fits perfectly into modern interiors, where it becomes not only a functional light source but also a distinctive artistic element.

Colour: crystal opal mist + crystal/crystal opal mist  
+ gold/crystal with golden mica + opal mist  
Diameter: 1000 mm (39,37 in)  
Height: 940 mm (37,01 in)  
Weight: 41 Kg  
Light source: 6 x GU10

### FLAME 10

Colour: crystal opal mist  
+ crystal/crystal opal mist + gold  
Length: 1180 mm (46,46 in)  
Width: 590 mm (23,23 in)  
Height: 2200 mm (86,61 in)  
Weight: 17 Kg  
Light source: 6 x GU10

HOLLY LEAF

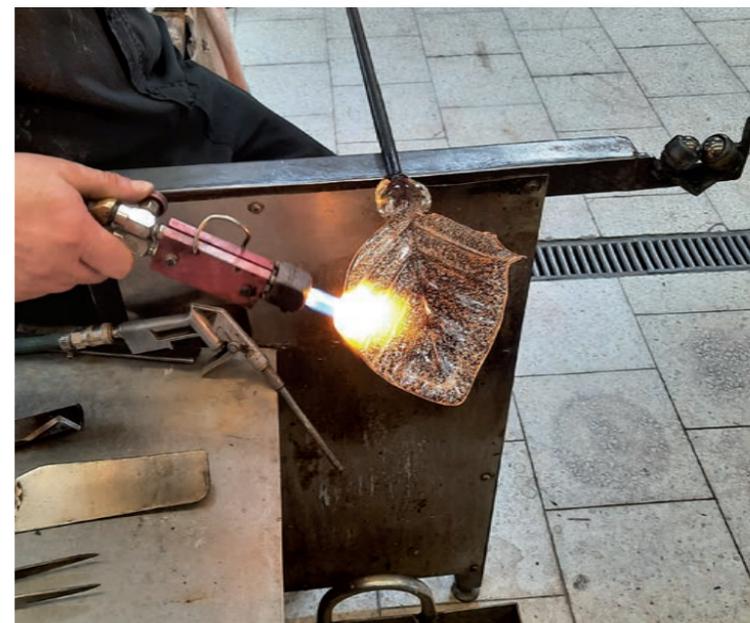

# HOLLY LEAF

Symbol of Joy

The Holly Leaf design is made up of crystal components that resemble a holly leaf in shape. This popular tree or shrub symbolizes happiness, love, health and joy for many.

The dynamics and lightness of the luminaire is also enhanced by the variable mounting system, thanks to which the individual leaves elegantly float in the air and reflect light in all directions.

# Components

Length: 230 mm (9,06 in)  
Width: 150 mm (5,91 in)  
Weight: 0,35 Kg

## HOLLY LEAF 2

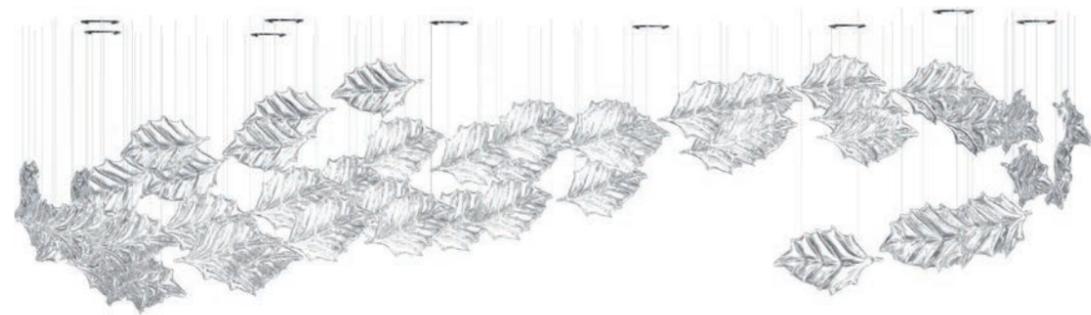

Colour: crystal/crystal + champagne + gold mica  
Diameter: 500 mm (19,69 in)  
Height: 1000 mm (39,37 in)  
Weight: 8,5 Kg  
Light source: 3 x GU10

## HOLLY LEAF 5

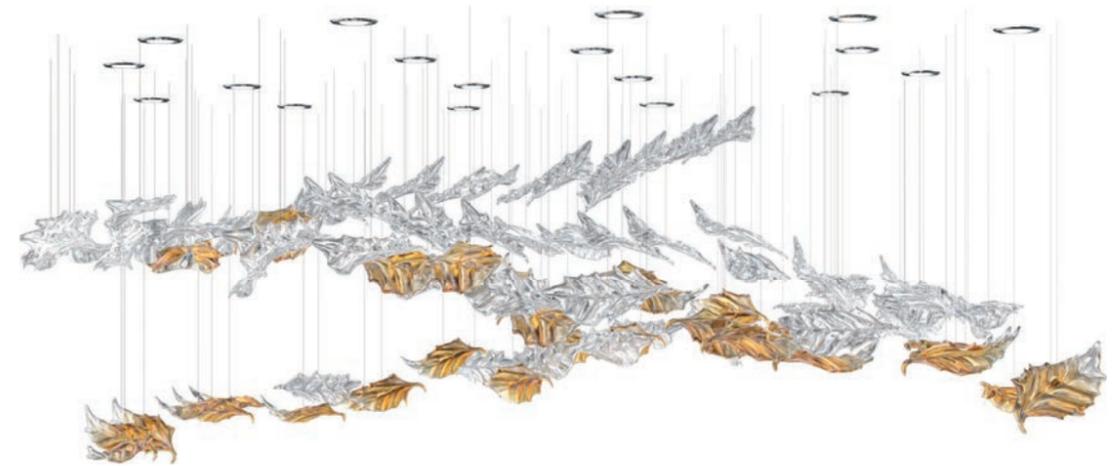

Colour: crystal + champagne + gold mica  
Diameter: 1240 mm (48,81 in)  
Height: 950 mm (37,40 in)  
Weight: 20 Kg  
Light source: 9 x GU10

### HOLLY LEAF 6

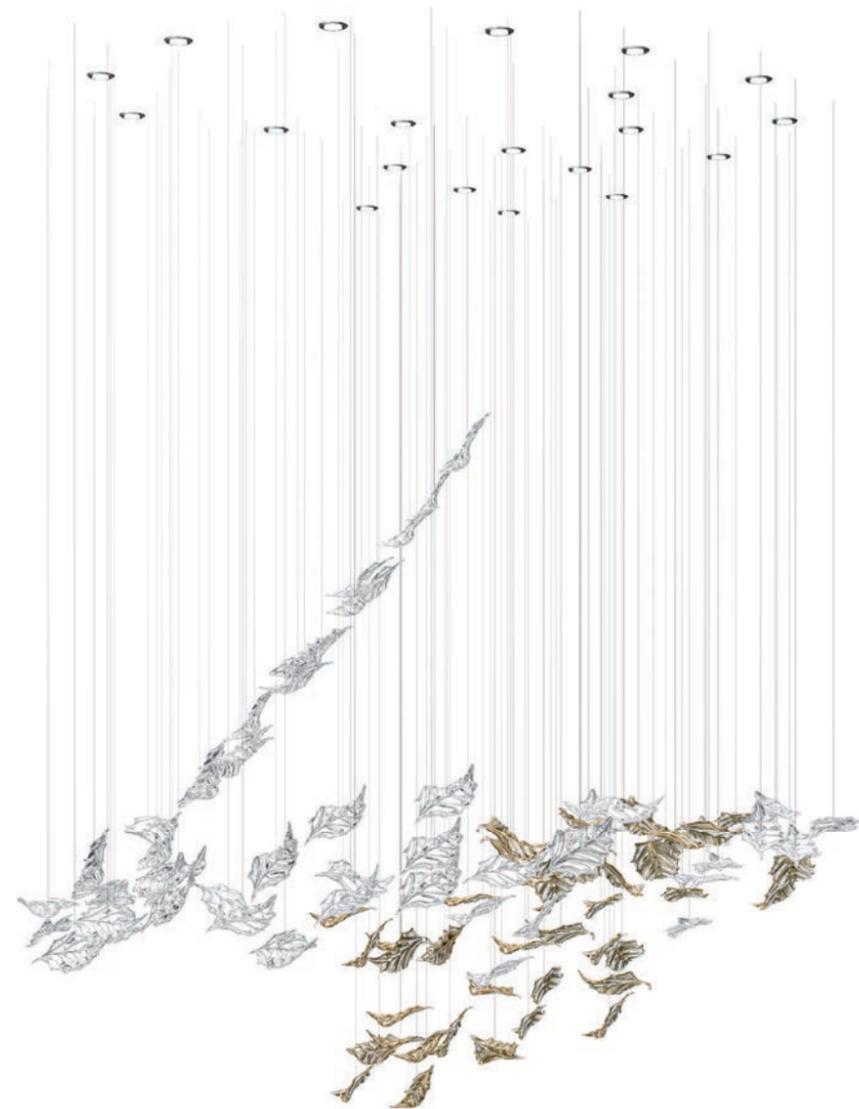

Colour: crystal  
Length: 2300 mm (90,55 in)  
Width: 800 mm (31,50 in)  
Height: 600 mm (23,62 in)  
Weight: 18 Kg  
Light source: 9 x GU10

### HOLLY LEAF 7

Colour: crystal/crystal + gold topaz gradient  
Length: 2040 mm (80,31 in)  
Width: 2200 mm (86,61 in)  
Height: 750 mm (29,53 in)  
Weight: 34 Kg  
Light source: 18 x GU10

### HOLLY LEAF 9

Colour: crystal/crystal + champagne + gold mica  
Length: 2700 mm (106,30 in)  
Width: 2800 mm (110,24 in)  
Height: 2300 mm (90,55 in)  
Weight: 36 Kg  
Light source: 20 x GU10

### HOLLY LEAF 10

Colour: crystal/crystal + champagne + gold mica  
Length: 2000 mm (78,74 in)  
Width: 1500 mm (59,05 in)  
Height: 2230 mm (87,79 in)  
Weight: 25 Kg  
Light source: 14 x GU10

ICEBERG

# ICEBERG

Arctic elegance

The Iceberg crystal lighting fixture brings the magic of Antarctic and Arctic glaciers directly into the interior. Its design was inspired by the majestic icebergs that break off from the ice shelves and float through the ocean.

Each individual hand-formed Czech crystal component is suspended from delicate metal strings, creating the impression of the outstretched wings of the birds that inhabit these frosty landscapes, which immediately attract attention.

The external lighting of the fixture creates fascinating effects reminiscent of the glitter of ice crystals.

Thanks to the beautiful details of the components, the lighting fixture is ideal for hanging above the bar, dining table or sitting area in the living room, so that we can admire its beauty up close.

# Components

Width: 70 mm (2,76 in)  
Height: 270 mm (10,63 in)  
Weight: 0,2 kg

## ICEBERG 1

Colour: crystal/crystal matt  
Length: 700 mm (27,56 in)  
Width: 250 mm (9,84 in)  
Height: 500 mm (19,69 in)  
Weight: 5,5 kg  
Light source: 4 x G10

## ICEBERG 2

Colour: crystal/crystal  
+ gold topaz core  
Length: 870 mm (34,25 in)  
Width: 650 mm (25,59 in)  
Height: 1350 mm (53,15 in)  
Weight: 9,5 kg  
Light source: 6 x G10

## ICEBERG 5

Colour: crystal/crystal gold topaz core  
Diameter: 1500 mm (59,06 in)  
Height: 1160 mm (45,67 in)  
Weight: 21,5 kg  
Light source: 11 x G10

## ICEBERG 6

Colour: crystal  
Length: 2700 mm (106,30 in)  
Width: 2400 mm (94,49 in)  
Height: 1500 mm (59,06 in)  
Weight: 38,5 kg  
Light source: 20 x G10

# STREAM

# STREAM

The story of water expressed through design

The Stream lighting fixture made of Czech crystal uniquely connects aesthetics, functionality, and the symbolism of the aquatic world.

One of the key design elements is the hand-shaped components whose design creates a delicate wave that from below resembles the movement of water on the surface, or the graceful Movement of a stingray in the sea.

This living shape changes its appearance depending on the angle of view and, like water, reflects light. This effect brings life to the space while introducing a piece of nature into the interior.

In the Stream lighting fixture design, color plays a key role. The combination of cool tones with transparent crystal enhances the impression of flowing water and simultaneously allows the fixture to adapt to various environments.

The STREAM lighting fixture is perfectly suited to residential spaces, as well as public spaces. For example, wellness zones or spaces with pools.

# Components

Width: 140 mm (5,51 in)  
Height: 225 mm (8,86 in)  
Weight: 0,3 Kg

Width: 200 mm (6,87 in)  
Height: 115 mm (4,53 in)  
Weight: 0,42 Kg
